

FOR IMMEDIATE RELEASE

The EADS Group Hires Environmental Department Manager

Altoona, PA (12/14/11) –The EADS Group, Inc. (EADS), an engineering, architectural and design firm, is pleased to announce the recent hiring of Carlos E. Escalante as the Environmental Department Manager at the firm’s corporate headquarters in Altoona, PA.

Carlos joins The EADS Group with over 20 years of NEPA, natural resource, hazardous waste, and project management experience. Previously, Carlos served as an Office Manager in Columbus, OH and Environmental Manager in Pittsburgh, PA where he was instrumental in obtaining and managing contracts for PennDOT and ODOT as well as several counties and municipalities.

In his new role with The EADS Group, Carlos’ responsibilities will involve overall management and supervision of the environmental department. He will be responsible for scheduling of projects and staff under his supervision. He handles contract administration, prepares and monitors budgets, and serves as the primary client contact. Additionally, he prepares and modifies reports, plans, schedules, studies, permits, and designs for projects, as well as coordinates and approves pricing, estimating, scoping, and marketing strategies for proposed projects.

The EADS Group, Inc. is a multi-disciplined engineering, architectural and design firm that has proudly served the region for over 50 years. EADS specializes in civil engineering, architecture, site development, highways, bridges, water and wastewater, surveying, mapping, planning, construction inspection and environmental services. EADS employs nearly 200 professionals at offices in Altoona, Somerset, Pittsburgh, Clarion, Lewistown & Johnstown, PA and Cumberland, MD.

Employment opportunities with The EADS Group can be found on the company’s website at www.eadsgroup.com/careers/careers.html.
